Dear UBC Friends,

All UBC cities offer a variety of things to see and do. The numerous events all year long and thousands of people make the city's atmosphere vibrant and lively.

The new edition of the UBC Cities Events Calendar 2011 will help you to choose from a wide range of options and to plan the travels.

The Calendar gathers the event information in one publication being a useful informative guide to business, cultural, sporting, recreational activities and exhibitions organized in your cities.

This publication presents the highlights of the events held around the Baltic Sea and does not make a claim to be complete. You are welcome to contact the municipalities and tourist information centers for further information.

Let's meet in the UBC cities!

With the Baltic Sea greetings,

A handwritten signature in black ink, reading 'P. Bødker Andersen'. The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Per Bødker Andersen
President of UBC

“Ways to Brick Gothic”

Tall, proud, mighty and visible from far away, whether on land or at sea, the churches of Wismar provide an unforgettable skyline: St. Nicholas's, St. Mary's, St. George's. Taking St. Mary's as an example, the visitor gets an immediate lesson in the techniques of gothic brick-building and of the handicrafts of the middle ages. The climax of the exhibition is a 3-D film presentation which provides virtual images of the erection of the Church of St. Mary. St. George's Church is amongst the largest brick-built churches of North and East Germany. Destroyed by bomb raids, right up until the year 1990 the ruin was at the mercy of further disintegration. On 25 January 1990 a hurricane caused the gable of the northern nave to crumble inwards. This event turned out to be the catalyst for the reconstruction of the church. Let yourself go – you will be enchanted by the charms of brick gothic architecture.
