

**Meeting Point Urban Magma is being arranged for the second time, and we invite you to take part in the annual conference high-lighting cities' challenges within energy, water and waste.**

Program of the conference includes:

- **Keynote presentations** about major global challenges of urban utility systems by Mattias Goldmann, and the Swedish picture by Lena EK.
- **Presentations** sharing experiences in urban supply system from cities around the world, such as Barcelona, Eindhoven, Bornholm, Nantes, etc.
- **Lectures** of testbeds in field of solar energy solution, a triple helix model to develop waste management, etc.
- **Study visit** at Malmberg headquarter to see how Malmberg works towards the water treatment and its prefabricated biogas upgrading Malmberg COMPACT® units in production.
- **Round table discussions** (topics will be announced on 29<sup>th</sup> of January).
- **Four workshops** (topics will be announced on 29<sup>th</sup> of January).

Speakers are from Spain, Netherland, France, Denmark and Sweden.

Participants are from Swedish and international municipalities, environmental technology companies and public organizations. We expect 150 participants.

**Dates:** March 8<sup>th</sup> and 9<sup>th</sup>, 2016

**Location:** Västra storgatan 12, Kristianstad, Sweden

The ticket costs SEK 1 295 at present, and price will rise to SEK 1 600 on 19<sup>th</sup> of February.

**Notice:** Registration will be closed on 1<sup>st</sup> of March.

We look forward to seeing you at the conference!
