Temat: Connection to a network

-- START OF MESSAGE --

Hello,

I am representing CIT Urban Water Management AB. We are a consulting company working with (mostly Swedish) municipalities to provide decision-support for sustainable water management.
www.urbanwater.se

We are starting a project to establish a network for sustainable wastewater decision-making in coastal transition areas in the Baltic region. During the start-up phase we are linking Swedish and Estonian cities (some already part of your union). We would like to work under the umbrella of the Union of the Baltic Cities as a complimentary network instead of a brand new network. Would you this be interesting for you?

I can send more information on the network.

Regards,
Jennifer
