

## FEHMARNBELT DAYS 2016 – First program

---

+++ work in progress +++ work in progress +++ work in progress +++ work in progress +++

After the first call for participation in the Fehmarnbelt Days 2016, which take place from 20 – 22 September 2016, we are happy to present you a first program overview. Still, the detailed program is under preparation, but this short overview might give a first impression of the wide spectrum of different interesting events and presentations.

The general concept for these three days foresees to a joint kick-off of the Fehmarnbelt Days. This opening shall be a relaxed start into the following days, enriched with welcome greetings and interesting remarks, cultural performances and followed by an informal networking reception.

The next day starts with a single track conference on the urban-rural relationship followed by a set of different larger and comprehensive events on regional development as well as science & business and culture. The Thursday offers most of the detailed workshops, sessions and conferences on various topics. In total, the number of proposed events already surpasses the events in the realm of the Fehmarnbelt Days 2014 in Copenhagen by 50 percent. Consequently, the program promises to be absolutely intriguing, offering a suitable event for everyone – as you can see from the diversity of already available event teasers.

### The Program
