**INVITATION TO THE ANNUAL PROGRESS CONFERENCE OF THE BALTIC SEA STRATEGY'S TRANSPORT PRIORITY AREA No 11**

Dear Madam/Sir,

Since the EU Strategy for the Baltic Sea has already been launched for one year, an assessment of the implementation of the Transport Priority Area is highly required. It is also high time not only to overview the implementation of the flagship projects, but also to search for new initiatives and projects contributing to the aims of the Baltic Sea Strategy.

On this occasion I would like to invite you to the Annual Progress Conference of the priority area No. 11 of the Baltic Sea Strategy, which will take place on **the 7<sup>th</sup> of December 2010** in Vilnius, Lithuania. Within the structure of governance of the Transport action area of the Strategy, Lithuania and Sweden as coordinators established this concept of Annual Progress Conference. This conference, convened annually, should help to assess the overall progress of implementation of transport and logistics related activities and projects, as well as to launch the new initiatives.

Please also be informed that a separate workshop on Baltic Transport Outlook (BTO) study, organized by the BTO team, will be held in the afternoon of the 6<sup>th</sup> of December. The aim of the workshop is to anchor BTO project and the regional Core Network methodology among stakeholders (transport companies, ports, industry, rail/road/maritime/air administrations, other EU projects).

**PRACTICAL INFORMATION**

The Annual Progress Conference will be held in the premises of the Ministry of Foreign Affairs ( J.Tumo-Vaižganto 2). The BTO workshop will take place at the same premises.

Please require more information and confirm about your participation to [n.kaucikas@transp.lt](mailto:n.kaucikas@transp.lt), +370 5 2393871 (as well as to [l.juskauskaite@transp.lt](mailto:l.juskauskaite@transp.lt), +370 5 2393965) no later than **22<sup>nd</sup> of November 2010**.

**ANNUAL PROGRESS CONFERENCE**

“Accessibility in the Baltic Sea region:  
Implementing flagship projects and launching new initiatives”

7 December 2010

Vilnius

Premises of the Ministry of Foreign Affairs, J.Tumo-Vaižganto str. 2.

**Aims of the conference**

After one year of launching the EU Strategy for Baltic Sea, assessment of implementation of the Transport Priority Area should be exercised, lessons learnt from the policy development within the governance of the Strategy have to be analyzed, relevancy of the flagship areas should be confirmed and flagship projects can share its view on the implementation, difficulties they face and solutions that can be taken on board.

Understanding that Action plan of the Strategy is a live document and open to new initiatives, also it is a high time to look into new perspectives for action within the Baltic Sea region. New projects are emerging and the conference is a good platform for them to be presented.

**Stakeholders and participants**

Leaders of projects and flagships, as well as the owners of new initiatives, representatives from ministries and agencies, the European Commission, other relevant stakeholders from local authorities and regions, associations and research institutions.

**Outcome of the conference**

According to the presentations and discussions during the conference, the content material will serve as the amendment of the progress report on the implementation of the Transport Priority Area, which has already been produced at the end of June 2010. Also the report on the outcomes of the conference will be published at the relevant media and sites.

# BALTIC TRANSPORT OUTLOOK

The Swedish government has initiated Baltic Transport Outlook 2030, a project that aims to provide a similar view of the challenges and possibilities that the transport system in the Baltic Sea region is facing. The core of the project is a study that will map the transport infrastructure in the Baltic Sea Region and the flows of goods and passengers - between the countries in the region and between the region and other areas. The study should present a description of the current situation as well as scenarios for developments until 2030 and will include all transport modes. The project is a strategic priority of the Baltic Sea Strategy that was adopted by the European Council in October 2009.

**This workshop** will be a working meeting providing unique possibilities to discuss the content of the Baltic Transport Outlook 2030, in particular the first two steps of the project:

- 1) Core Network Methodology (Task 1) and
- 2) Drivers of transport demand and supply (Task 2).

The purpose of the workshop is to anchor the whole BTO process with a broader group of stakeholders (public as well private) in the Baltic Sea transport system.

For more information about the workshop, please contact the BTO project secretariat:
