

Donostia-San Sebastián, 25<sup>th</sup> February 2014

Dear friend,

As we did in 2012 and 2013, Fomento de San Sebastián is launching a new edition of the **INTERNATIONALISATION GRANT PROGRAMME** for young graduates in Donostia- San Sebastian metropolitan area. The programme is part of the city's Economic Development Plan 2014.

We are writing because we would like you to be part of the **INTERNATIONALISATION GRANT PROGRAMME 2014**, which Fomento de San Sebastián is launching in the next few months.

The programme consists of grants addressed to university graduates or higher training diploma holders under 30, for an **internship of at least eight months abroad**. The ultimate goal is to enhance young graduates' skills through their participation in a specific project, to the benefit of the host organisation headquartered abroad.

**It is an initiative** designed to meet the demand among the skilled labour in Donostia- San Sebastian **to improve their knowledge, competencies and skills, and to enter the labour market in emerging sectors** considered as strategic in Donostia-San Sebastián. It responds to the need of the local business fabric for young labour with skills in special sectors, trained in international environments to face the global reality.

All grants are **100% financed by Fomento de San Sebastián**.

The programme gives professional training in specialist sectors, improving candidates' technical and language skills and deepening their knowledge while fostering their mobility.

The **INTERNATIONALISATION GRANT PROGRAMME 2014** is now selecting host organisations that might have an initial interest in hosting 1 trainee for their organization. This is why we are contacting you, as we would like to:

- a) Know if you are interested in hosting an intern.
- b) Ask you to help circulate this initiative among organisations in your area.
