

The Monument of the Deer

The Monument of the Deer is located on the square near the Municipal Office in Mielno. It is said that it has been in Mielno forever. It is a popular tourist attraction and it adds a nice touch to the town. Often devastated - but always renewed. The monument, presenting a metal statue of a life-size deer, was founded in the interwar period by one of the landowners, to commemorate a successful hunt. The Deer became the landmark that no one visiting Mielno can miss!
