We also encourage catering schools from UBC cities to take part in the competition, prepared especially for the young students of culinary arts.

The main idea of this event is to integrate the culinary promotion of regional cuisine and having fun together. The event will be interspersed with various attractions. At the end of the ceremony, on Saturday, we are going to listen to rock star music performance. We believe that the magic of Charlotta Valley combined with a love of cooking make this for all unforgettable.
